

GOVERNMENT OF THE DISTRICT OF COLUMBIA  
DISTRICT DEPARTMENT OF TRANSPORTATION

Infrastructure Project Management Administration

May 20, 2013

Dear Resident:

The District Department of Transportation will start implementing safety enhancements at the intersection of 37<sup>th</sup> Street N.W and Tunlaw Road N. W., on or about May 28, 2013; weather permitting.

Construction is expected to be completed by June 25, 2013. weather permitting. The contractor will work during the hours of 9:00 A.M. and 7:00 P.M., Monday through Friday. Some Saturday work may occur, with 72 hours notice to the community.

This work will involve excavation and pouring of new concrete base, milling and resurfacing of existing roadway, installation of new sidewalks and replacement of some existing driveways. The work will also include upgrading the existing catch basins in the intersection, installing a bio-retention pond and installing proper pavement markings and signage with the project limits.

During construction, bus traffic will be maintained. Northbound 37<sup>th</sup> Street/Tunlaw Road traffic will be detoured for an approximate two (2) week period.

Detour signs will be posted. Access to the adjacent houses will also be maintained. However, curbside parking will not be allowed on location during construction hours.

Thank you for your patience and understanding during the construction. If you have any questions or concerns, please contact Mr. Charles Daniel of my staff at 202-409-2070.

Sincerely,

Paul Hoffman  
Program Manager  
Ward 3 & 4
